# Residential Natural Gas Shopping Guide

by the

## Pennsylvania Office of Consumer Advocate

### Introduction

The Pennsylvania Office of Consumer Advocate is a state office whose job is to represent Pennsylvania consumers in matters involving their utility services. We prepared this guide to help residential consumers understand and review their choices for a natural gas supplier.

The gas lines that run down your street and into your home are still owned and operated by your local natural gas distribution company. The rates for that distribution part of your service are regulated by the Pennsylvania Public Utility Commission. But many Pennsylvania consumers can choose the company that provides the gas supply portion of their natural gas service through their regulated company's distribution lines.

Only suppliers licensed by the Pennsylvania Public Utility Commission can sell natural gas supply to consumers in Pennsylvania. Some suppliers may offer natural gas supply service that is cheaper than the gas supply you normally would buy from your local natural gas distribution company. Other suppliers may offer longer or shorter contracts for service at a fixed or variable price. The price of gas from your local natural gas distribution depending on what the company pays for gas in the wholesale natural gas market.

### How To Shop for Natural Gas

A "price to compare" is the amount that you will pay for your gas supply if you continue to buy from your local natural gas distribution company. Each regulated local gas utility has its "price to compare" in either cents per ccf (100 cubic feet), dollars per Mcf (1,000 cubic feet) or therms. If you have natural gas heat, you will use much more natural gas in the winter months than you do in the summer. The best place to find your monthly usage is on your monthly gas bills. Once you know your utility's price to compare and your typical monthly usage, you can begin to shop for your natural gas supplier. By comparing the supplier's price with your natural gas distribution company's price to compare, you can find out whether or not you will save money by switching.

Price to Compare	\$ 4.00/Mcf
New Supplier Price	- <u>3.00/Mcf</u>
Savings	\$ 1.00/Mcf
Savings	\$ 1.00/Mcf
Monthly Use	X <u>10 Mcf</u>
Savings per Month	\$10.00

As this table shows, if your natural gas distribution company's price to compare is \$4.00 per Mcf and the competing natural gas supplier is charging \$3.00, then you can save \$1.00 on every Mcf you use. If you use 10 Mcf in a month, then you will save \$10.00 that month.

### How To Use This Guide

We collected information about Pennsylvania’s natural gas distribution companies and the natural gas suppliers offering service to residential customers. Attached is a chart showing the utility company’s price to compare, and the comparable price being charged by the natural gas suppliers offering service in that area. We also list the monthly bills for suppliers’ service at a typical usage level. If a supplier charges a monthly or annual fee, we spread that charge over the usage shown. For example, if a supplier charges a \$5.00 monthly fee, plus \$3.00 per Mcf, and if a consumer uses 10 Mcf, then the monthly bill in our example would be \$35.00.

It is also important to note that we have **only** included the supply portion of your natural gas bill in our comparison charts. All customers will also have to pay other charges to their natural gas distribution company to have the natural gas delivered to their home. Those charges are the same regardless of who supplies your natural gas and will not affect the amount of your monthly savings.

New Supplier Price per Mcf	\$3.00
Monthly Usage	X 10 Mcf
Monthly Usage Cost	\$ 30.00
Monthly Fee	+ \$5.00
Monthly Supply Bill for 10 Mcf per month	\$35.00

**Now It’s Your Turn**

This is only a guide to **start** you in the shopping process. We have tried to gather accurate information from all the residential suppliers that we are aware of in each area, but there may be other offers available, so please ask the supplier when you contact them. Also, **prices change**. You should always contact the supplier directly to make sure that you understand the price you have to pay plus all other contract terms, such as the length of the contract, whether the price is fixed or variable, and any other fees for switching to or from a particular supplier. Your natural gas distribution company’s price to compare may change quarterly, too.

There have been very big changes in natural gas prices in the last few years. Local gas companies and gas suppliers have had to make many adjustments in their rates for customers. Some adjustments happen more quickly than others. You should compare rates carefully to make sure you are getting a good deal.
